

## **Patrick Klick, DPT**

*Owner/Lead Physical Therapist*

**Hometown:** Huntington Beach, CA

**Bachelor's Degree:** Chico State – Bachelor of Science, Exercise Physiology

**Graduate Degree:** Chapman University - Doctorate of Physical Therapy

My name is Patrick Klick. I have been working as a licensed physical therapist since 2004. I started my career at Hoag Hospital where I had the pleasure to work with patients undergoing joint replacements, cardiac surgeries, and wound care along with a multitude of other medical conditions. During this time, I also worked as an outpatient physical therapist with Physiotherapy Associates in Orange County, honing my skills as a clinician.

In 2006, my family and I moved to Oahu, Hawaii where I joined the team at Castle Medical Center continuing my work as an outpatient physical therapist. In this clinic I specialized in treatment for older adults and gained considerable insight into cultural diversity. We relocated back to California in 2009 where I joined the team at Crystal Cove Care Center serving patients in the skilled nursing setting for the past 11 years. During this time, I also worked with patients one-on-one in their homes. This has been exceptionally rewarding as I've found providing this high-quality care allows me to serve my patients more effectively with improved communication, more specific plans of care, and ultimately stronger patient outcomes.

I truly love what I do and feel so blessed to have had the opportunity to work with great patients and clinicians in diverse physical therapy settings. I believe these experiences have given me a rounded outlook at patient care including the patience and tools to provide exceptional treatment to a wide variety of patients in need.

Throughout my career it has become more and more apparent that the highest quality care I can provide takes place in the safety and comfort of the patient's home. This has driven me in 2020 to co-found Mobile Therapy Specialists Inc., an effort to bring quality care directly to those in need.
