

**Katherine Moses PT, DPT**

*Physical Therapist*

**Hometown:** Texarkana, TX

**Bachelor's Degree:** Dallas Baptist University, Dallas TX- Kinesiology / Exercise Science

**Graduate Degree:** University of St. Augustine, Austin, TX- Doctorate of Physical Therapy

My name is Katherine Moses. I've been involved in the field of physical therapy since 2014 and have been working as a physical therapist since graduating with my Doctorate in Physical Therapy in December 2019. My interest in physical therapy first began as a high school student that was fascinated with the intricacy and resilience of the human body after taking my first anatomy class. I knew I wanted a career that was people focused, but also something that challenged my mind. These passions led me to begin shadowing a family friend that was a PT and I decided at 17 years old that Physical Therapy was the path for me.

After graduating, I have gained so much experience in the orthopedic and neurological fields, treating a wide variety of pathologies, age ranges, and complexity levels. I am passionate about providing quality care to each patient so that they can recover and enjoy life! I love what I do and strive to pass that passion into every patient I provide care for.

In my free time, I enjoy going to the beach with my husband, Greg and our dog, Ty. I also love painting, hiking, biking, and enjoying nature!
