

Lynn Schiff, PT

Physical Therapist

Hometown: Long Beach, CA

Bachelor Degree: Northwestern University - Physical Therapy

My name is Lynn Schiff. I've been a licensed physical therapist since 1981. I started my career at St Mary's Medical Center working in a variety of settings including inpatient, outpatient, acute in-house rehab, cardiac and pulmonary rehab. From there I branched out into home health and adult day care centers and eventually settled into working in a long term care environment for the past 20 years. Within this environment I worked in skilled nursing, outpatient, assistive living and home health care.

Most recently I have been in multi-site and executive leadership positions within the long term care space. However, with the ongoing changes and challenges in the healthcare environment, I have come back to my roots and back to why I became a therapist: to provide quality individualized outcome driven skilled rehab services. And by bringing this service directly to the patient's home, I'm now able to truly individualize each patient's Plan Of Care. MTS has provided me the opportunity to achieve these goals and be rewarded with the improvement in the quality of life of each of my patients.
