

David Park, DPT

Physical Therapist

Hometown: Lansdale, PA

Bachelor's Degree: California State University of Long Beach – Bachelor of Science, Kinesiology - Exercise Science

Graduate Degree: West Coast University Center for Graduate Studies - Doctorate of Physical Therapy

My name is David Park and I've been working as a physical therapist since 2021. My journey is a bit different in that I actually had no idea about physical therapy until after college. A few of my friends from college entered the field and overhearing their experiences piqued my interest. I decided to volunteer at different clinics and immediately fell in love with how much of an impact physical therapists can play in peoples' lives. I began applying to physical therapy programs and the rest is history.

My desire to provide the best quality care to my patients began after my mom got sick. After she was diagnosed, there were countless appointments with different health care professionals. I'm glad to say that there were many great individuals who helped us during the difficult time. However, there were health care professionals that left us feeling unheard and frustrated with more questions than answers. I vowed that I would never put my patients in the same position.

This is why it's my mission to give my patients my absolute best. Everyone deserves to feel heard and have access to great healthcare. I could not be more excited to join MTS with such an amazing team of therapists that share the same mission.
